“ As a classmate of Denise at Newton County High School, she was always full of fun and laughter. As adults, whenever we were together, she continued that excitement for life in everything she did. We have recently been working on our 50th Class Reunion, and she always volunteered to take on many projects and completely handled our social media. We never worried if Denise was responsible because we knew she would take care of it. She also offered so many good ideas for our class. We already miss her presence and our meetings but her contributions to our lives will continue for many years.
